

	<b>INDIANA DEPARTMENT OF CHILD SERVICES CHILD WELFARE MANUAL</b>	
	<b>Chapter 12:</b> Foster Family Home Licensing	<b>Effective Date:</b> 3/1/07
	<b>Section 6:</b> Medical Training Requirements	<b>Version:</b> 1

<b>POLICY</b>	<b>OLD POLICY: 609.232</b>
---------------	----------------------------

The Indiana Department of Child Services (DCS) will require foster parent applicant(s) and licensee(s) to complete a Cardiopulmonary Resuscitation (CPR), First Aid, and Universal Precautions training prior to initial licensure. Additionally, each course must be current at the time of relicensure, every 4 years, in order to maintain a foster home license.

<b>PROCEDURE</b>
------------------

The licensing worker or FAKT coordinator will ensure that training accepted for credit meets the minimum requirements of these guidelines:

1. CPR training must include adult/child/infant CPR certified in a program on pediatric cardio-pulmonary resuscitation and pediatric airway obstruction under the [American Heart Association's Basic Life Support Course D guidelines](#) or any other comparable course that provides the required training. [American Heart Association](#), [American Red Cross](#), [American Safety and Health Institute](#), [Medic First Aid/Pediatric First Aid \(Adult, Child and Infant CPR inclusive\)](#), [National Safety Council](#), and [Heartsaver CPR](#) state that they adhere to American Heart's Basic Course D's guidelines. On-line, internet based courses are not acceptable
2. First Aid training must include first aid for seizures, poisoning, and hemorrhaging. If care is to be provided for infants, first aid for shock must also be covered. Any nationally accredited agency that provides First Aid Training to public and private agencies is acceptable. On-line, internet based courses are not acceptable
3. Universal Precautions training must cover blood-borne pathogens which include, but are not limited to, hepatitis B virus (HBV), hepatitis C virus (HCV), and human immunodeficiency virus (HIV) and the transmission of communicable diseases. Any nationally accredited agency that provides Universal Precautions training to public and private agencies such as [American Red Cross](#) and [American Heart Association](#) is acceptable. The trainer must be certified. On-line, internet based courses are not acceptable

The foster family home applicant/ or licensee will submit a copy of their training certificate of completion to their licensing worker.

**EXCEPTION:** Prior medical training received as part of applicant's profession (e.g. M.D., R.N, paramedic, etc) may replace the training requirements upon the approval of a variance by the Central Office Licensing Unit. Refer to separate policy, Chapter 12, [Variances](#).

The licensing worker will:

1. Ensure an updated Red Cross first aid manual or its equivalent is available in the home upon licensure and relicensure
2. Enter medical training completion in ICWIS
3. Maintain copies of certificates and documentation supporting completion of training
